ROLLING MILL TO INSTALL NEW MACHINERY

Live Conveyor to Be Attached To Rolls to Lighten Work of Men—Also Building Addition to Plant.

Arrangements are now well under way and machinery partly built for installing more convenient and labor saving equipment in the mill which department at the Rolling Mills here. This new equipment consists of a large roller platform conveyor which mechanically takes the long hair of iron away from the rolls and in deposits them on a platform. The rollers are eventually cut into the required lengths. In the past, this work has been done by hand and it has had a telling effect on the men doing that class of work. It is to lighten this work and make it more convenient for the men that the management has decided to install this new machinery.

In order also to make the work more comfortable for the men engaged in handling the scrap and bringing it to the storage during the cold weather, the manager is having a large addition built to the east side of the mill so that this work will all be done under cover with protection from the wind and storm.

All the machinery and castings used for the roller conveyor and the new addition are being shipped in from the mill and are now ready to be put in position. This, it is expected, will be done some time this fall.

At present this mill is a very busy place. Orders are coming in from all quarters and as improvements being made from time to time add to the efficiency of the plant the work of supplying the demand is being most satisfactorily accomplished. As the orders now coming in are among the largest ever secured there is no doubt that a busy future is in store for this plant for some time to come.

Brick & Coal Employees Make Good Donation

This week the Brick & Coal plant here made its first contribution to the Red Cross fund since adopting the new system of each employee giving a percentage of his earnings each month for this purpose. Under the present system the amount specified in the contract of each employee in the office and the total amount is handed over to the treasurer of the Red Cross in a lump sum. The first donation from this source is now in the hands of the Red Cross treasurer and it amounts to \$95.45.

Belgian being an excellent donation this system greatly simplifies the work of the ladies who hitherto have had to go from house to house to collect their monthly collections.

Saskatchewan River Is Wrong on the Map

Domestic surveyors have been camped along the river in the Box Springs district for the past few weeks. They have been engaged in some very important work, as result of which the map in that district will be considerably changed. It now appears that some mistake was made in the original survey from which the present maps of that district were printed. The surveyors now on the work have discovered that the river appears on the map 400 yards further east than it really is. It is the intention to have this amended by the present survey and have the river placed on the map where it rightly belongs.

Now Two Million Americans in Europe

At the same time that the president's reply to Germany was made public, the White House gave out correspondence between Secretary Baker and President Wilson, showing that more than 2,000,000 American soldiers have embarked to participate in the war against Germany.

REDFCLIFF NEWS

OUR JOGAN: An Industrial Metropolis of Industrious People Who Pull Together.

REDFCLIFF, ALBERTA, THURSDAY, OCT. 24, 1918.

Thanksgiving Service At St. Ambrose Church

The Harvest Festival was fittingly observed in St. Ambrose church last Sunday. The church was festively decorated with ivy, vegetables, grain and flowers for the occasion and added much to the appreciation of the service. Temporary pains were being meticulously covered with grain from the sheaf, making a very pleasing effect.

Both morning and evening services were well attended and on both occasions the thanksgiving service was completed. The evening service delivered an address which was well suited for the occasion. Taking for his text the words of Paul to the Corinthians, wherein he said: "That soweth to his flesh shall also reap life everlasting." The speaker drew attention to many similarities in the natural harvest and the spiritual harvest. In both instances it is a case of "what sows" a man that he also reaps." Just as the capitalist expects to reap a harvest, so the man who sows good cannot expect to reap a bountiful harvest, neither can the one who is careless and indifferent with regards to spiritual matters expect to reap a harvest. "What sows the good and faithful," welcome in the great spiritual harvest.

During the evening service the choir very ably rendered the appropriate anthems: "Sing to the Lord of the Harvest."

The service offering collection for day will, with all promises, amount to \$100.00.

Another Week of Success for Allies

The peace talk which has been occupying so much attention lately has not in any way effected the work of the allied armies on the several fronts. It was a week spent on to greater efforts and achievement. Reports from the front for the past week show that victory has crowned the allied arms on every battle front. The following is a review of the weeks' successes:

Since the Belgians are being rapidly cleared by the British and Belgian forces. Belgians have occupied Zebruggen and Heist. On their way they have reached the Dutch frontier, where 15,000 Germans, cut off from their retreat by the advance north of Zebruggen, are reported to have withdrawn into Holland, where they were interned.

Ghent, it is predicted from British, Belgians, and the French, at an early date, and the French a swift stroke along an extended line, have put their forces within two miles of Ghent. Thirtieth day after war, the French, despite stubborn enemy resistance, as well as the high ground round about.

British troops have crossed the Selle river, have conquered Solesmes, and have had fighting, not only in the section around that town, but at St. Pythens, to the east. Here the British have captured more than 2,000 prisoners.

Since the beginning of the operations in Flanders, the allies have made an advance of more than 30 miles over a 36-mile front, clearing all of western Flanders, as well as the coast, of the enemy.

The American forces operating in conjunction with the British north of Washington have advanced to the Somme-Oise canal. They occupied Rebecq and St. Spirit, at the point of the Rognon. Wave after wave of machine guns and rifles have been used to inflict enormous losses on them. The British have discovered that the river appears on the map 400 yards further east than it really is. It is the intention to have this amended by the present survey and have the river placed on the map where it rightly belongs.

Along the front in Russia, a severe defeat has been inflicted on the Bolsheviks by Czechoslovak and Siberian forces. Three armored trains, with 1000 men and 60 machine guns, were captured by the allied troops.

GERMANS PREPARING TO LEAVE BRUSSELS

German forces at Brussels are working incessantly to remove war material from that city, according to the Rouennais correspondent of the Hand-Clasp. He says that many regiments of German troops are leaving the city and that there is much excitement among the people there. On the other hand Antwerp is very calm and has not been effected by recent events.

Terms of Victory Loan 1918

Sir Thomas White in his speech at Winnipeg on October 8th announced the terms of the Victory Loan 1918 as follows: Through the prospect of the fifth Canadian war loan—the Victory Loan of 1918—the Dominion of Canada will offer for a minimum amount of \$200,000,000, with the right to accept all or any part of subscriptions in excess of that sum, to be used for war purposes only, to be spent wholly in Canada. The rate of interest will be 5 1/2 per cent per annum, payable May 1, and November 1, and the denominations \$50.00, \$100.00, \$500.00 and \$1,000.00. The loan will be offered in two instalments—five-year bonds, due November 1, 1923, and 15-year bonds due November 1, 1928.

The issue price will be 100 and accrued interest for both maturities, making the income return 5 1/2 per cent per annum. Provision is made for payment in five instalments as follows: 10 per cent on application; 20 per cent December 6, 1918; 30 per cent January 6, 1919; 20 per cent February 6, 1919; 31.19 per cent March 6, 1919. The last payment of 31.19 per cent covers on per cent balance of principal and 1.19 per cent representing accrued interest at 5 1/2 per cent from November 1 to date of the respective instalments. As an full half year's interest will be paid on May 1, 1919, the cost of the bonds will be 100 and interest. Payment may be made in full at the time of application at 100 without interest or on any instalment due date thereafter with interest accrued at 5 1/2 per cent annum. Bearer bonds will be available for delivery at the time of application to subscribers desirous of making payment in full. Bonds registered as to principal only, or as to both principal and interest in authorized denominations, will be delivered to subscribers making payment in full as soon as the required sum of \$100 is received. Bonds of this issue will be free from taxation—including any income tax imposed in pursuance of legislation enacted by the Parliament of Canada, and will carry the privilege of exemption from taxation on the same basis as the thirty or longer, issued by the government, during the remaining period of the war.

Subscription lists will be open on October 28, 1918, and close on or before November 16, 1918.

How to Treat and Prevent Influenza

Influenza, which is now sweeping over Canada from east end to the west, is a very contagious disease. It is an ancient time, and as early as 1510 it occurred in the whole civilized world. For centuries it has periodically been sweeping over various parts of the world. The last great world epidemic was in 1889-1900, when it was generally known by the French name of "grippe." The symptoms are similar to those of a heavy cold, with aching, flushed face, chills, aches and pains in the back and limbs, pains in the eyeballs and behind the eyes, general lassitude, depression and temperature rising to between 101 and 104 degrees.

As it is such an old disease, doctors have naturally learned a good deal about its prevention and treatment. The first principle of prevention is to keep away from those infected, and the second to build up the germ-resisting parts of the body by eating nourishing foods, dressing comfortably, getting lots of sleep, and living in the open air and in bright, well-ventilated rooms as much as possible. The mouth, throat and nose should be kept clean and frequently washed by antiseptic inhalations, sprays and washes. Such preparations as chloroform and iodine are well adapted for this purpose.

In fighting previous epidemics, doctors found quinine a useful preventive. One grain of quinine of quinine mixed with (but not dissolved in) a wheateast of cold water makes an excellent antiseptic gargle. The antiseptic properties of quinine are well known and its use as described above at once relieves the symptoms of sore throat, which result from the strain of the fight between the white blood corpuscles and the invading germs in the tissues—the body's first line of defence. Quinine is also given internally with success as a preventive. In one of the more recent outbreaks in Europe an experiment was tried in which the men of the squadron of a regiment of cavalry were given seven 7 1/2 grains of quinine in a course which daily for 23 days, whilst those of the other squadrons were given none. The latter squadrons had from time to time each of influenza, whilst the squadrons given quinine developed only 2 cases. Inhalations of oil of eucalyptus, thyme, oil of clove, etc., are also like are also valuable as preventives.

When a person is struck by influenza only one course lies open. That is to take bed and rest as far as possible, and call a doctor. Rest, warmth and quiet are three essential remedies for influenza. The most deadly complication, of which pneumonia is the most frequent, while there is no cure for influenza, yet there are many drugs which play a useful part in relieving it, such as quinine, strychnine and various tonics, and-eucalypti, juniper and mint medicines to be prescribed by the physician in charge.

Preventative Anti-Influenza.

(1) The sick should be separated

Spanish Influenza Has Reached Redcliff

Redcliff, the most westerly town, now has a few cases of the Spanish influenza which has been sweeping over this country for the past few weeks. As a result, the Board of Health has been taking precautionary measures to retard its spreading. Last Friday the Board issued instructions to close the schools and "picture shows" at that time there were no cases reported on Sunday day cases developed and on Monday a fifth was added to the list. The Board then decided to take further steps and as a result church services and all public meetings were ordered called off and postponed. Prohibitions were instructed not to allow more than ten people to congregate in their places at one time. As there are a number of boarding houses in town the Board is considering the advisability of securing a suitable building to be used as an isolation hospital to be used for cases from such boarding houses should the epidemic continue to spread.

The case so far reported appears to be of a mild nature and of those effected observe the proper precautions exercise the greatest care no serious results are expected. However it behooves every citizen to do his and her part in helping to keep the epidemic well under control.

Since the above was written the epidemic has gained considerable headway and the Board of Health has decided on more stringent measures. Now the jitneys have been stopped running and notices have been printed and posted up forbidding people to congregate in any numbers any place. Negatives are also urging the necessary care in sneezing, spitting and coughing, and requesting all to wear the prescribed masks over their nose and mouth while on the street or in stores.

TO REDCLIFF REVIEW

"As a result of the epidemic which I wish to offer my sincere thanks to the good people of Redcliff for their generous contributions towards the cause which we all hold so dear. Our objective was over-reached by nearly two thousand dollars, and this is largely owing to the hearty co-operation of the good people of Redcliff. The Board of Health is indebted to the good people of Redcliff for their generous contributions towards the cause which we all hold so dear. Our objective was over-reached by nearly two thousand dollars, and this is largely owing to the hearty co-operation of the good people of Redcliff. WORKERS WANTED.

The recent peace rumors, together with the recent great successes of the allies on all fronts may have a tendency to dampen the order and interest in many of our people in all branches of war work. This should not be the case. The answer of the allies to all the enemy's peace moves undoubtedly is: "No peace and no armistice until military victory is overthrown." This means that the enemy may continue the fight till they are forced to an unconditional surrender. It also means that there must be no let-up in our activities here at home any more than there will be any let-up by the boys in the trenches.

We are told by officers of the Red Cross Society that there is great need at this time for help here in Redcliff for more workers. The society is experiencing no difficulty in getting the necessary money to purchase goods and meet all their other obligations, but there has been a big falling off lately in the number of women to come to the rooms and help with the work of making this raw material up into articles to send over to the boys. The junior branch of the society is also in need of more girls to help. This is a sad state of affairs and is no doubt due to overconfidence and a belief that the end is in sight. Let us not make this mistake. We are at present at the most critical and serious period of the whole war. It is the last drive that will count and it is the last that will win the war. Therefore let us be it to the finish so that we will be able to say we have done all we could.

The Red Cross rooms are open every Tuesday afternoon for the purpose of giving out work and returning it. Every woman in town who has time to hem at least one handkerchief a week should be on hand to do her mile.

PAY YOUR TAXES.

We would again draw the attention of ratepayers to the fact that we are now approaching the date of the last rebate on taxes. On all taxes paid before November 16th a discount of five per cent will be allowed. Apart from the fact that taking advantage of this rebate will mean a considerable saving to the average taxpayer, there is also the fact that the town needs the money at the present time and needs it badly.

Nothing is to be gained by the delaying of payments. They must be paid some time. On the contrary much is lost by delaying. First there is the rebate which in many cases is well worth considering, especially in these times. Then there are the penalties which will be added after the first of the year. When both these are taken into consideration it should not take much of a scholar or financier to figure out that it pays handsomely to pay taxes promptly. Now mind what the other fellow is doing. Run your own show. Because some one else loses the rebates and pays the penalties is no reason why you should do the same and be out of pocket.

With the continued activities

and abnormally high rate of wages here for the past year there should be little excuse for delinquency in the payment of taxes. The town needs the money to meet obligations which the taxpayers themselves, by their votes, contracted, as well as to keep up the necessary expense of running the town, if we are to continue to "carry on" at home.

KEEP COOL.

The Spanish influenza is now in our midst and while there is great need on the part of our citizens to take every precaution and lend their assistance in every way in getting it under control, yet there is no good to be gained by getting panic-stricken. The epidemic appears to be of a much milder form in the west than was the case in the east and as a result there has been a very small percentage of fatalities. However this should not cause us to slacken precautionary measures in the least nor should we take the epidemic any less seriously. In other places the most serious results have been caused by carelessness in taking the proper treatment when the first symptoms were noticeable. One symptom to get around too quickly after having had it. In both cases pneumonia develops and usually proves serious.

The symptoms have been widely published and should be well known to everyone. If, therefore, any of these symptoms are noticeable the best plan is to call the doctor at once so that you will be taking no chances.

The Board of Health has issued several instructions to the public as precautionary measures. These should be observed to the letter by all concerned, and if there are any who appear to be dilatory in responding to these instructions the public should give the Board every assistance in bringing the guilty parties to justice.

The wearing of the prescribed mask is recommended as one of the surest preventatives, and the Board has issued instructions that they be worn here, yet there is still quite a number going around without them. Notwithstanding all this let us keep cool and go about things as quietly and effectively as possible. Excitement and stampeding only leads to unnecessary worry and hampers the work.

THE VICTORY LOAN.

Canada's 1918 Victory Loan will be on the market next Monday morning at 9 o'clock and from then till the 16th of November the people throughout Canada will be expected to buy Victory Bonds to the limit of their ability.

Unfortunately the influenza epidemic, which is rampant throughout Canada at the present time will interfere considerably with the organization work in connection with this campaign. This makes it all the more imperative that individuals take a keener interest in the work and do their utmost to make it a success.

No true Canadian will be found wanting in his response to the appeal which the next Victory Loan will make to him. He will weigh in his conscience the question of how much he is going to subscribe to that loan to help to victory the highest cause for which men have ever faced the supreme sacrifice. He will not fail to hear the call of duty. He will do his part towards making the loan a success worthy Canada, whose resources from ocean to ocean, are all behind it.

When the Hun first used his poison gas on the battlefield, it was a lone Canadian division

that saved the situation. It may be possible for Canadians at home to render a similar service now by doing their utmost to make the 1918 Victory Loan the greatest success yet.

SCHOOL HEALTH.

In addressing the delegates of the Union of Alberta Municipalities, Hon. A. G. McKay, minister of municipal affairs and health, devoted the greater part of his speech to a discussion of health problems, emphasizing the necessity of town, village and rural school districts undertaking the medical inspection of their schools. In his address he referred to the powers given to school districts regarding health conditions, and he appealed to mothers of the province to have put into operation these powers which gave them authority to engage doctors to make regular inspection. He assured them that if properly handled this would cost very little per year. He urged the delegates to enlist the co-operation of the women and to invite them to consider the feasibility of putting into operation through the local school boards the powers which they already had in this matter, as he said this country could not accomplish anything unless it was healthy.

The warning and advice of the minister of health are timely and should be acted upon at once by all concerned.

If Germany writes many more peace notes her people should not be long in finding out that before they can hope for much progress in this line they must first take the "helm" out of "Wilhelm."

Since the Spanish influenza has struck the west boards of health are calling off all public meetings. Some think the Boards should go a little farther and call off all private meetings of our financial obligations.

The white flags which the Huns are waving over each page note have too much innocent blood on them to be taken seriously. Past experience has shown that before they can be taken seriously there must be no matches left around for the Hohenzollerns to play with.

Regarding the war situation and the outcome of the several peace notes, some Socialist German newspapers are very outspoken. The Frankfurter Tages Post, of Nuremberg, Bavaria, says the emperor must not think the German people are going to continue the war for months to please him. "If the emperor must go," it adds, "let him go at once."

The correspondent reports that the chancellor and the pan-Germans are working actively toward the formation of a national defense movement. He says a proclamation to the people exhorting them to join on-war to the United States has been drafted with the help of Gen. Ludendorff and that he understands it will be published as soon as President Wilson's reply has been received. It is expected in Berlin, the correspondent adds, that the president will not allow himself to be fooled and ridiculed by the existing German government.

German Newspaper Now Speak Plainly

Regarding the war situation and the outcome of the several peace notes, some Socialist German newspapers are very outspoken. The Frankfurter Tages Post, of Nuremberg, Bavaria, says the emperor must not think the German people are going to continue the war for months to please him. "If the emperor must go," it adds, "let him go at once."

The correspondent reports that the chancellor and the pan-Germans are working actively toward the formation of a national defense movement. He says a proclamation to the people exhorting them to join on-war to the United States has been drafted with the help of Gen. Ludendorff and that he understands it will be published as soon as President Wilson's reply has been received. It is expected in Berlin, the correspondent adds, that the president will not allow himself to be fooled and ridiculed by the existing German government.

American Aviators

Bomb Hun Camps

In the first full day for flying in the night, a big fleet of American biplanes bombed German concentration camps. There were numerous bombs and three enemy machines were brought down inside the German lines. Observation planes dropped thousands of copies of President Wilson's latest note to Germany behind the enemy front. There are indications that since the Kristianstede-Bellung line was broken, the main body of Germans are retiring upon their defenses in the rear, leaving only machine gun outposts.

HON. FRANK B. CARVELL.
Minister of Public Works in the Union Government, who visited Redcliff last week and went through our industries.

Things to Consider

In Peace Settlement

Reuters has received from an official British source the following account of some of the terms which figure in Germany's Bill. All amounts are given in pounds sterling:
Local contributions and time levied by Germany on Belgium in 1914, 8,000,000; war contributions from November, 1914, to October, 1918, 48,000,000; war contributions, seven months to May, 1917, 214,000,000; war contributions, year to May, 1918, 225,000,000; war contributions, June to October of the current year, 215,000,000.

War materials and machinery taken by the Germans were to be returned to January, 1918, at 480,000,000; damage to December, 1914, estimated by the Nord Deutsche Allgemeine Zeitung at 220,000,000, making a grand total of 2,884,000,000.

The above does not include material destruction or requisitions since January, 1917, 1915, which alone must be reckoned at several hundred millions sterling.

Moreover, during the winter of 1916 1,700,000 working men were deported to Germany, the whole of whose force production is totally lost to their country.

Siberian Force

Despite the growing evidence of an early peace and the news that the Bolsheviks have been driven out of Siberia, the government is proceeding with the organization of its expedition to eastern Russia. The imperial war cabinet and war authorities have been consulted, and it is understood they advise that the expedition be dispatched. Under something unforeseen happens within the next few weeks, the main expedition will sail for Vladivostok in November.

There are two reasons for the decision not to exchange at present the original plans. One is political reason is that even if peace is made with Germany at an early date, it will be some time before order will be restored in Russia. Great Britain, with her extensive Oriental interests, feels that the empire should be represented, even if by a small force, as well as the United States and Japan during the period of reconstruction. It would be unwise not to have a military representation, even if by a small force, as well as the United States and Japan during the period of reconstruction. It would be unwise not to have a military representation of the empire in Siberia until order is completely restored.

The second reason is military. It is still far from certain that the war is over. The military authorities both in Great Britain and the United States, are making preparations for next year's campaign as if the war was only fairly started; to slacken efforts, it is felt, would be disastrous.

TOWN OF REDCLIFF.

REVISION OF VOTERS LIST.

The Voters' List of the Town of Redcliff is now completed, and may be inspected at the office of the Secretary-Treasurer between the hours of 9 a. m. and 5 p. m., except Saturdays, and on that day between 9 a. m. and 12 noon.

Any person having the necessary qualifications and who name has been omitted from the list, is requested to immediately make application to this office, in order that his or her name may be added.

F. M. COUNTELL,
Secretary-Treasurer.
September 9th, 1918.

Department of Municipal Affairs

Notice of Court of Confirmation of Returns of Unpaid Taxes.

Notice is hereby given that the Judge of the District Court, has appointed Tuesday, the 19th day of September, 1918, at 10 o'clock a. m., for the holding of a Court at the Court House in the City of Medicine Hat, for the confirmation of Returns of unpaid taxes made under the provisions of Section 35 of the Improvement District Act, covering the following Improvement Districts, viz:

Numbers 1, 2, 3, 4, 5, 6, 31, 32, 61, 62, 63, 64, 91, 92, 121, 122, 124, 151, 152, 154, 155, 156, 157, 211, as shown on official map.

Also for the confirmation of the Returns of unpaid taxes made under the provisions of Section 13 of the School Districts Act, covering the following territorial units, viz:

Numbers 1, 2, 3, 4, 5, 6, 31, 32, 61, 62, 63, 64, 91, 92, 121, 122, 124, 151, 152, 154, 155, 156, 157, 211, as shown on official map.

Also for the confirmation of the Returns of unpaid taxes made under the provisions of Section 13 of the School Districts Act, covering the following territorial units, viz:

Numbers 1, 2, 3, 4, 5, 6, 31, 32, 61, 62, 63, 64, 91, 92, 121, 122, 124, 151, 152, 154, 155, 156, 157, 211, as shown on official map.

Dated at Edmonton 24th of August, 1918.

J. H. LAMB,
Acting Deputy Minister,
Department of Municipal Affairs.

Says Allies Will

Fight All Winter

A report from American headquarters in France says: "Unless they are saved by their plan for peace, the Germans will be subjected to steady hammering along the greater part of the western front throughout the winter. Indications are that it is not intended to give them a breathing space, notwithstanding weather conditions."

During previous winters the enemy has been able to rest up himself and replenish his supplies, especially ammunition, and there is no reason to believe he would not avail himself of the same opportunity now, and to a much greater advantage.

There are two places on the front where it is conceded that military operations during the winter will be virtually impossible, but American officers insist that 75 per cent of the front offers no real obstacle to a continuance of the fight. It is not questioned that operations will be slowed down, but, even so, the advantage will be with the attacking side, especially since it is known that German material is growing scarcer.

THE USE OF THE APPLE

Those who make a liberal use of apples will serve the dual purpose of saving for shipment overseas such articles of food as are fit for that purpose and at the same time furnish a useful and valuable food for the household.

"The apple without question is the king of fruits, whether fresh, dried, evaporated or canned. It is a wholesome food, easily prepared, attractive and palatable at all times."

"Always cook apples in earthen or granite utensils and use silver, brass, tin or wooden spoons for stirring. The use of the apple as the basis for all manufactured jam is well known. This is due to the large amount of pectose which it contains. There is no waste to a good apple; even the paring and core may be utilized for jelly. Fruits are classified as flavor fruits and nutritive fruits—the apple comes under both of these heads."

Extracts from a little booklet issued by the fruit branch of the Dominion Department of Agriculture giving 100 recipes for the use of the apple. The book can be had free on application to the publications branch, Department of Agriculture, Ottawa.

It is officially announced that up to Sept. 30 there has been manufactured in Canada 68,000,000 shells and 76,250,000 forgings. The war authorities are making preparations as if there was no peace in sight and orders on a larger scale than ever are being let by the Imperial Munitions Board for the coming year. The order for the coming year will run nearly a billion dollars.

F. ODLIN, Chairman of Board of Health

For Foch and Freedom

Buy Victory Bonds

Allies Continue

Their Onward March

Reports from British headquarters issued today say: "The British began a new attack early today on the front between Locatour and Solemes, south of Valenciennes."

"The British have captured Bruay, 2½ miles north of Valenciennes, and have reached the west bank of the Scheldt."

"Northeast of Laon, French troops reached the line of the Sierre river, having made an advance of two or three miles on an eight mile front."

The town of Brielles on the western bank of the Meuse, which has been stubbornly defended by the Germans, has been given up by the enemy to the Americans.

This is the latest point at which the Americans have driven a dent into German defenses, despite the fact that enemy resistance is still as strong as formerly.

TRACTOR AND CONTRACTOR.

A movement, starting in Montreal and continuing in Chatham, Ontario, might well be carried throughout Canada. This is the contracting idea as applied to farm lands. City men with a little capital are forming syndicates to buy tractors and break idle land under the direction of practical contractors. This principle could be applied to regular farm lands and would help solve the labor problem for the Dominion farmer.

OVER 1,000 CASES OF

FLU IN PROVINCE.

Official reports received by the provincial health authorities show that 1,045 cases of influenza have been reported from all over the province, but that this number is far from being complete, owing to the doctors not living up to their instructions to report cases as they develop. Dr. Jamieson's office is flooded with telegrams asking for nurses, who cannot be supplied. Many outlying districts have no doctors.

GERMANS PREPARING

TO LEAVE BRUSSELS.

German forces at Brussels are working busily to remove war material from that city, according to the Brussels correspondent of the Herald. He says that many regiments of German troops are leaving the city and that there is much excitement among the people there. On the other hand Antwerp is very calm and has not been affected by recent events.

How is Your Stock of STATIONERY ?

Are you still using the old fashioned Rubber Stamp or have you the neatly printed Letter Heads and Envelopes? As a young man is judged by the company he keeps so is a business or professional man often judged by his stationery.

The Redcliff Review

ITEMS OF LOCAL INTEREST

Enough cheese cloth for a week for use at Broadway Department Store.

W. Bartlett, of Suffolk, is slated for week among those killed in action.

Mrs. Thos. Crooks spent last week end in Calgary visiting her Crooks, who is now working there.

The many friends of Mrs. D. Waters will be glad to learn that she has sufficiently recovered from her recent illness to be around again.

Mrs. D. McLachlan and Mrs. D. Kerr of this town, have been members of the Ladies Auxiliary of the G. W. V. A. of Medicine Hat.

Owing to the prevalence of influenza the teachers' convention which was to have been held in Medicine Hat, has been indefinitely postponed.

As a precautionary measure the social advertised to take place in the St. Ambrose parish hall last Monday evening was cancelled.

Jack Finn, who has been employed as night operator at the station here for the past year, has been transferred to Brooks.

Mrs. A. R. Billman, of Calgary, one of the successful candidates in dentistry at the September examinations in Edmonton, is the first woman dentist to graduate in Alberta.

Messrs. Tunny, Winterburn and J. Ellis, three large ranchers north of here, intend shipping some cattle east next Tuesday. In all they expect to ship about ten car loads.

Dr. Brown, of Toronto, who has been on a business trip through Saskatchewan, spent a few days in town this week visiting his son, Dr. E. W. Brown.

Several of the boys from here who enlisted with the R.N.W.M.P. for service in Siberia, are suffering from an attack of influenza at their camp at Regina. Among them are Luther and Robert Clark.

Owing to the outbreak of influenza in town the regular meeting of the Redcliff and District Welfare Association which was to have been held here on Wednesday evening of this week was indefinitely postponed. Watch for announcement of meeting later.

This is the last week of the daylight saving time. On Sunday we go back to the old time when all clocks will be turned back an hour. As there will be no church service on Sunday and no school on Monday, young and old will have a week in which to get used to the new time again.

Pt. Frank Clark and C. Hay, of the R. N. W. M. P., enlisted for service in Siberia, are spending a few days in town this week. These two boys are the only ones in their company who have escaped the Spanish influenza. Clark reports that his brother Luther had a very bad attack but is now improving nicely.

Mrs. Frank Broughton received word this week that her brother, Arthur Hawthorne, was wounded and admitted to hospital on Oct. 12th. He was a Lance Sergeant and enlisted at Medicine Hat with the 176th. Mrs. Broughton's youngest brother was killed in action last year when she had five brothers in the service and they are scattered over all the main theatres of war.

There will be no service at Bowell next Sunday as had been arranged.

R. N. Rose and family, of the Box Springs district, have moved to town for the winter.

Joe Delahue, of the Bowell district, shipped a car of horses to Saskatchewan this week.

J. H. Gibbs, who has been working over Bowell all summer, is spending this week at his home here.

Mrs. E. O. Wylie left last Tuesday for the Medicine Hat hospital where she will undergo an operation for uterine trouble.

The strict quarantine which has been observed in Lethbridge and Taber for the past few weeks has now been lifted.

Charles returned last Sunday evening to his home in Spokane, after spending the summer visiting Mrs. A. W. Woodcock here.

Mrs. Hurford, who has been playing the piano in the Presbyterian church since coming to town, has been engaged as organist in the First Avenue Methodist church in Medicine Hat.

J. Elden arrived in town last Monday and is making arrangements to leave shortly for British Columbia. Mrs. Elden and family leave next week for Saskatchewan where they will stay till Mr. Elden gets settled.

We would again remind our readers that when they sign in items of news for the paper they send their full names and not only give their initials. We do not want the names for publication but merely as an assurance of good faith.

Oct 21st is to be observed as a National Fish Day throughout Canada. The idea is to make known the tremendous wealth of our Canadian seas and lakes now largely going to waste because people's tastes have run to foreign food. Every home in Canada is expected to have fish for Oct. 21st.

On Monday of this week a wire reached town announcing that Pic. Minicent Powers was reported badly gassed. It appears that Powers, enlisted from Redcliff and that his father Michael Powers was residing here at the time but we have been unable to get any particulars of this family.

The executive committee appointed to make arrangements for the Victory Loan campaign in this district, will meet in Crue's hall on Friday evening of this week. All last year's campaigners are requested to be present to get their stationery and instructions so as to be ready for the drive which commences on Monday next.

Use Your Dollars To End The War

If my dollar will drive the enemy back from despoiling Europe and threatening America, here it goes! I will put all I can spare into a Victory Bond, to help old Canada finance its own war burdens, our secure for Great Britain a plentiful supply of foodstuffs.

For it is not the rich man's pile of counts meant—It is the accumulation of purchases made by farmers and rural business men from every corner of Canada that swells the total and strikes terror to the heart of our enemy.

When dollars can fight, let us wheel every one of them into line and so hasten the peace that we wish for our golden impact strikes the front line. It is a patriotic and helpful indeed who saves for Victory Bonds.

First Experiences

In Threshing

The following letter was received last week from a Redcliff boy who had his first experience in the trenches and is now among the wounded.

Dear Sir:—Hello, I am 19 years old. I have had my first experience in the firing lines. It would hardly be fair to say that I was fighting him because they didn't fight. There was no fight left in them after our artillery peppered them with all kinds of shells, that were so scared they didn't know which way to go. They came running towards us singly, in pairs and in groups of from 10 to 40, all of them with their hands high over their heads, calling "mercy, mercy." Of course we didn't have the heart to shoot the dirty beggars then; we just had to take them prisoners, and we sure got an awful bunch of them. Our battalion got in four prisoners then we were in our last position. It was simply a walk-over for us. The Hunns were seized out of their wits and they sure had good reasons to be so, when our guns started their barrage. "They sure made things fly in Hunland, and to hear them popping and booming was the grandest lot of July 4th celebration I ever heard. We went over the top early Monday morning and Fritz hardly fired a shot until we reached our objective, then he sent over a few of those infernal things called wild bangs. He began to make it pretty hot for us in the trench our company was in, so our officer took us back quite a ways to another trench and let him bang away at the enemy trench until he got tired. If then we went a little further ahead than we were before. He sent over a few gas shells which made us scarce but otherwise did no harm that I know of. I put my mask on two or three times, but soon took it off again because I was trying to dig a hole in the bank for shelter. We were in chalk trenches that day. I think chalk makes a very good trench or dugout. Fritz sure had some grand old caves in—wood which we captured; they were deep down and very long; we used some of them for dressing stations and the wounded were quite safe in them.

September 14th—Here goes for a few more lines. Was glad to get your letters from home, of which I received two last night. We have been getting lots of rain this week and it looks like we will get more soon. Yesterday and today we were practicing for a ceremonial parade which we will have tomorrow and some of the boys will be decorated with medals which they won when we went over the top after the Hunns last week. When I was up to the line I got a pretty good pile of Fritz's old fashions a Jack knife and a purse with German and Belgian money in it. I have given all the paper money away except the bank notes, which I am keeping in this letter. It is a five mark note. Paper money is worth mostly here. If we keep on winning the Hunns like we did last time and like the French have lately I think they will soon have to give in. I saw Orville McKay news come ago. He is with the Royal Highlanders of Canada but we are both in the 4th division.

When we got on the train at ——— to come here we were given some hard luck and badly hurt and when I started to get back I had a hole in that front tooth I had filled in Redcliff a while back. I am getting to look like an old man now with my hair clipped off and a tooth out. There goes talk of us going farther back behind the lines for a week but of course we don't know.

Wishing you the best of luck and happiness,

Your brother,
MILFORD COLE.

THE HICKS TRADING CO., Redcliff

FOR SALE—Lots on Third street, or will trade for stock. Mrs. C. E. Current.

Anyone requiring nice cut flowers can get them at the Overland Greenhouses.

TO EXCHANGE—I have some good cow and heifer calves which will exchange for beef cattle. Apply M. Con. Redcliff.

TO RENT—Furnished or unfurnished rooms; may have use of phone and piano. Apply to Mrs. R. Auger, First street, or at Mrs. Wilde's confectionery store.

GRATER ACREAGE NEEDED.
The Canadian wheat crop for 1918 has proved disappointing, despite the increased efforts to put a larger acreage into crop. This effort must be renewed for 1919. Victory is in the air. Canada must not relax in her task of furnishing supplies. It is important that the greatest possible wheat acreage be plowed this fall. The United States crop this year was fortunately a big success. Next year it will be Canada's turn. The allies depend upon us.

Preventive Dentistry

Hundreds of people go around with a full artificial set of teeth in the upper jaw and from three to five natural teeth in the lower jaw and expect nature to take care of their stomachs. It is a false economy, for it is a well known fact that it takes a great deal more food when imperfectly chewed than when thoroughly masticated, to sustain the body. An American expert says that the people of the United States waste enough food every day, because of improper mastication, to feed the entire American army in France for one year. Just think of it. Don't be a waster. Get your teeth put in shape and help win the war.

THE MAN HIMSELF.

"GIVE EACH BITE THIRTY-THREE CHEWS."

Another false economy is to go out of town for your dental work. There are two or three villages around town who are forever advising their friends and neighbors to go to the Hat. They say it is cheaper. If any one dentist charges a smaller fee than the other dentists in his community look out for that fellow. He knows the value of his own work better than you do and a poor fee means a poor service.

DR. J. CLEARY WRAY
Office Sykes Block Third St. Redcliff, Alta.

TO EXCHANGE—House and lot with stable, on Fifth street, Redcliff, to exchange for cattle, or near title, Apply P. O. Box 1029, Medicine Hat.

SANITATION

Prevention Better than Cure
Now that you have used all the recommended remedies for your throat, clothes and living quarters, do not overlook the teeth and the tooth brush, the very spot where the germ may lurk.

We always have a stock of Tooth Brushes on hand, but recommend two makes of Tooth Paste and one Powder. These are Euthym's Tooth Paste and Womple's Formalide, and a Carbolic Tooth Powder.
